

## Street Scale Series Introduction

---

The balance between the street and its buildings strongly affects the amount of interaction and activity in that area. This series includes photos of several different levels of street scale. While viewing these photos you may choose to consider how the following keywords apply to each photo. Then, consider how these keywords may apply to your community's similar, present and future street scale.

---

Keywords:

activity, awnings, contiguous growth, crosswalks, density, dining areas, mixed-use, on-street parking, pedestrian refuges, proper elements and safety tools for different scales, ratio of street width to building height, rhythm, sidewalks, store fronts, street buffers, street furniture, street lights, traffic calming tools, traffic signs
