Input Sought to Shape Wasatch Front Communities

Wasatch Front Regional Council, UDOT and UTA host webinar and online survey

WHAT: The Wasatch Choice 2050 (WC2050) Vision establishes a blueprint for future growth and development along the Wasatch Front. Community input will shape the final Vision. Wasatch Front residents and other Utahns are invited to a free webinar detailing three future growth and development scenarios that explore trade-offs between different transportation and land use choices. After learning about the proposed scenarios, participants will provide their input through a short survey, part of which will be gathered via an online interactive map.

WHEN: Tuesday, May 2, 6:30 – 7:15 pm.

WHERE: Online. Visit WasatchChoice.com/Training for free registration information.

WHY: The Wasatch Front Regional Council (WFRC), in close collaboration with the Utah Department of Transportation (UDOT) and the Utah Transit Authority (UTA), is seeking input from Utahns living along the Wasatch Front regarding the future of the region.

Three alternative scenarios for the future of the region are currently being reviewed and refined to further define the WC2050 Vision, which will guide leaders and planners in shaping communities in the face of rapid growth.

About WC2050

Building on community values through an extensive public input process, Wasatch Choice 2050 establishes a blueprint for growth that supports a well-functioning economy, improves air quality, and enhances the overall quality of life for Utahns living across the Wasatch Front. This locally-driven, regionally-significant process will produce a strategy for future growth and a framework to identify, select, and prioritize 2019-2050 Regional Transportation Plan projects. Learn more and provide input at <http://wasatchchoice.com/scenarios>.
