

# Memorandum of Agreement

On May 23, 2013 the Wasatch Front Regional Council approved the planning area boundary as the Metropolitan Planning Organization (MPO) for the Salt Lake/ West Valley and Ogden/ Layton Urbanized Areas. This boundary includes all of Salt Lake County, all of Davis County, and Weber County west of the Wasatch Mountain Range (see attached meeting minutes and map). On February 7, 2013 The Mountainland MPO Regional Planning Committee approved the planning area boundary as the Metropolitan Planning Organization (MPO) for the Provo/ Orem Urbanized Area , with the northern boundary being the Salt Lake-Utah County line (see attached minutes, resolution and map).

Both MAG and WFRC recognize that the U.S. Census Bureau has included a few hundred households in Utah County, that are within the Draper City limits, in the Salt Lake/ West Valley Urbanized Area. However, given that this is a small number of households at the southeastern border of Draper City, and based on the logic of the aforementioned planning area boundary designations, we jointly agree that the MAG Regional Planning Committee is responsible for conducting the regional transportation planning process for the Urbanized Areas within Utah County (including the aforementioned portion of Draper City that is located in Utah County), and that the WFRC is responsible for conducting the regional transportation planning process for the Urbanized Areas within Salt Lake County.
