Main Street, Bountiful

Downtown, Sandy

Downtown, Ogden
Centered Growth: Benefits for Individuals

- More transportation and housing choices
- Easier to get there
- Reduces growth pressure elsewhere
- Cleaner air
Questions

• What should WFRC do with the findings.
  • What information would help you?

• What is consistent/inconsistent or missing from the Wasatch Choice 2050 centered growth concept
Wasatch Choice 2050 Phasing and Funding
WFRC Council Meeting, October 25, 2018
Better outcomes by working together
Council Milestones

- **Adoption of Goals**: October 2016
- **Vision Endorsement**: May 2018
- **Release draft RTP**: October 2018
- **Adoption**: May 2019
The Regional Transportation Plan

- The shared blueprint for regional transportation investment
- All major transportation projects are born here
Phasing: Timing of Anticipated Construction

- **Phase 1:** 2019-2030
- **Phase 2:** 2031-2040
- **Phase 3:** 2041-2050
- **Unfunded**
Road phasing example: phase 1

Phase by need

Goals

• Scoring projects as they relate to goals

Collaboration

• City and county staff
• UDOT
• UTA
• Today
• Public

Technical evaluation

• Air quality analysis
• Transportation and land development modeling
From existing revenue sources

- Local option sales taxes
- Vehicle registration fees
- Motor fuel taxes (or equivalent)
- Federal funds

Plus additional revenue assumptions (in line with trend)

- Authorized local option sales taxes
- Vehicle registration fees
- Other driver user fees

*Developed with UDOT and UTA

Board Modification

Regional Council
October 25, 2018

Ben Wuthrich
Wasatch Front Regional Council
Transportation Improvement Program is . . .

1. Six Year Program of Highway, Transit and Alternative Transportation Projects
   • Four Years Funded - Two Years Concept

2. In the Urban Areas
   • Salt Lake/West Valley - Ogden/Layton

3. Funded by
   • Federal, State, & Local Programs

4. For All Cities, Counties, UDOT & UTA
Transportation Improvement Program will . . .

1. Implement the Long Range Plans
   • Highway, Transit, and Alternative Transportation Projects for the Region

2. Help Meet the Short Range Needs
   • Of the Wasatch Front Area

3. Provide for the Maintenance
   • Of the Existing Transportation System
Transportation Improvement Program’s Dynamics...

1. Periodic Modifications due to
   • Project Timing & Funding Amounts

2. Modifications Require Board Action
   • WFRC or Trans Com as Delegated

3. Updated Annually with
   • New Projects/ Funding Strategies
## 2019-2024 Transportation Improvement Program (TIP) (Amendment One)
### Board Modification

### Additional Funding

With the construction of the West Davis Corridor in western Davis County, the traffic volumes on Syracuse Road (SR-127), an east/west corridor in the area, are projected to significantly increase. UDOT has begun the study to determine the level of environmental documentation that will be required for the improvements on Syracuse Road. The requested funds are necessary to fund the State Environmental Document. The funding is available from the cost savings on the SR-193 Extension between 2000 West and I-15.

The Black Rock and SR-36 Project is in need of additional funds due to the escalation of construction costs, UPRR permitting requirements, and additional maintenance of traffic (MOT) costs. The Black Rock project is ready to award. Various methods will be used to reduce overall impacts and delay to commuters on I-80 in Tooele County. The additional funding is made available from excess funds from the I-215; 300 East to SR-201 and the remaining amount comes from the Bridge program.
Davis County – Syracuse Road (SR-127); West Davis Corridor to 2000 West Environmental Study

Construction of the West Davis Corridor will increase the East/ West traffic along Syracuse Road – this study will identify and refine the additional improvements necessary.

Additional Funding
$ 700,000

*****

Total Project Cost Estimate $ 735,000
For optimal benefits from the West Davis Corridor, necessary improvements to the East/ West facilities are critical – this study will identify and refine the connection between West Davis and SR-193 at 3000 West.
**Project will extend/ rehabilitate 3 bridge structures to meet the future design requirements without modification.**

**Additional Funding**

is a result of the . . .

- Escalation of Construction Costs
- UPRR Permitting Requirements
- Maintenance of Traffic (MOT)

**Additional Funding**

$ 9,500,000

**Total Project Cost Estimate**

$ 36,500,000
UDOT has several pilot projects in which Connected and Autonomous Vehicles (CAV) technology has been used. Over the past four years, UDOT has worked to deploy an operational, connected vehicle corridor on Redwood Road in Salt Lake County, and another in Provo-Orem is about to become operational. A third project, involving four additional corridors is being planned in Salt Lake County. These deployments have given UDOT the experience and insight to understand the value of connected vehicle technology and prepare for a scaled-up deployment scenario. This request is to approve phase 1 of a project to involve partnerships to develop the Connected and Autonomous Vehicles (CAV) Eco-System. The contract will be a multi-phase severable contract, with future phases exploring new technologies and broader implementation of technologies developed.

---

**New Projects (FY 2019 Recreational Trails Program)**

The federal Recreational Trails Program (RTP) was authorized by Congress as part of the Intermodal Surface Transportation Efficiency Act of 1991. This program has been continued through the current FAST ACT transportation authorization. • These projects are selected and administered through the Utah State Parks and Recreation Division. • Funds may be used to provide and maintain trails for motorized and nonmotorized recreational uses, including trailside and trailhead facilities, and also provisions to facilitate access for people with disabilities. • For the 2019 Program, Utah has 32 projects totaling $1,723,894 in Federal Aid Funds and $6,921,302 of Sponsors Matching Funds for a total of $8,645,196 in New Project Value (projects totaling $667,000 in the WFRC Area.)

</table>
Statewide – Connected Vehicle Data Eco-System

Additional Signal Priority Deployments

Snow Plow Pre-emption Project
- Salt Lake Valley – portions of 5 corridors
- About 100 Intersections
- Operational Winter ‘18-’19

Provo-Orem BRT Project - UVX
- 47 Intersections
- 25 buses
- Operational mid-November 2018

The CV Ecosystem Project will represent a significant “scale-up” of these technologies

Phase 1
- Expanding CAV Technology
- Massive Scale Up of Infrastructure & Data Collection
- Involve Partnerships to develop

Project Funding
$ 8,000,000

Total Project Cost Estimate $ 8,000,000

Recreational Trails Program (RTP)

- Administered by Utah State Parks
- Motorized and non-motorized
- May be combined use
- Revenue from federal motor fuel tax;
  - apportioned to each state
- Utah annually receives about $1.4 M
RTP Funding Amounts
2019 - $1,723,894, 32 projects
8 Projects totaling $667,000
In the WFRC Area
VW Settlement

vw.utah.gov
Opportunities for Government Entities

Nearly 85% of the VW Settlement for Utah is allocated to government entities for:

- Replacing or repowering Class 4-8 local freight trucks
- Replacing or repowering Class 4-8 school buses, shuttle buses, or transit buses
- Purchasing, installing, and maintaining light-duty electric-vehicle supply equipment (EVSE)
Available Funding Amounts

Vehicle or Engine Replacements:

- Up to 50% of the cost for new diesel or alternative fuels
- Up to 55% for new vehicles or engines certified to the California Air Resources Board’s (CARB) Optional Low-NO_x Standards
- Up to 65% for new all-electric replacement vehicles or engines
  - Charging infrastructure may be included

Light-Duty, EVSE:

- Up to 100% of the cost to purchase, install, and maintain EVSEs available to the public at government-owned facilities
- Up to 60% of the cost to purchase, install, and maintain EVSEs available at a government workplace but not to the general public
Application Information

• The Division of Air Quality will accept applications October 1 – November 30, 2018

• Applications and required supplemental documents are available for download at vw.utah.gov

• Successful applicants will have three years from the time of the award to complete projects

• Future funding opportunities through the VW Settlement will depend on the number and amounts of successful projects that receive awards through this current funding opportunity
