

**Salt Lake / West Valley Technical Advisory Committee – Meeting Minutes**

Wednesday, January 22, 2020, 2:00 PM

West Valley Cultural Center, 1355 West 3100 South, West Valley City, Utah.

**1. Action Item –October 16th Meeting Summary ..... Greg Davenport**

Approved.

**2. Transportation Improvement Program (TIP) Business ..... Ben Wuthrich**

**• Information – Schedule for 2021-2026 TIP Process**

Ben Wuthrich of WFRC shared a list of projects submitted for the 2021-2026 TIP cycle and reviewed the next steps in the TIP process. The February meeting will include a detailed review of each project submitted for funding consideration. The March TAC meeting will begin with a staff recommendation of projects based on the project technical evaluation and field review. The TAC will consider the staff recommendation and revise as desired and determine a consensus recommendation to send to TransCom.

**3. Information Item – Highway and Transit System Report ..... Kip Billings**

Kip Billings of WFRC reported on trends in highway and transit performance. Highway VMT on the Wasatch Front is currently about 41 million each day representing about 5.6 million daily vehicle trips, and growing at about 2.1% annually. Transit patronage is about 44 million passengers annually, or about 147,000 each weekday. Transit passengers have been declining about -1.8% for the past 4 years.

Home to work trips, which tend to be longer trips and follow a regular schedule, represent about 27% of the daily traffic and is the best market for the transit mode. Home based trips to other destinations or errands are much shorter trips representing about 18% of traffic, and these trips may be the best market for alternative modes such as active transportation.

Speed data for arterial traffic is now available from UDOT. The data is collected from cell phone sensing. It is now possible to represent peak period speed as a percentage of free flow speed to quickly identify congested facilities. Speed data and transit data can be found at the following links:

**Speed Map:**

<http://arcg.is/10uy8>

**UTA Data Portal:**

<https://data-rideuta.opendata.arcgis.com/>

**4. Information Item – UTA Service Choices ..... Alexander Beim**

Alexander Beim of UTA reported on UTA’s Service Choices public involvement campaign to define the future direction for UTA service. UTA’s goals are:

- A. Mobility
- B. Coverage
- C. Air Quality
- D. Congestion Reduction

The service choice is whether to emphasize ridership or coverage. High frequency transit service in higher density environments is preferred for maximizing passengers, but this may leave less dense areas without any transit service at all.

The public is invited to visit the website: [www.rideuta.com/service-choices](http://www.rideuta.com/service-choices) for more information and to leave comments. UTA’s current service invests 40% of resources for transit coverage and 60% to maximize transit passengers. The 3,500 survey responses to date favor a greater emphasis on maximizing passengers.

The micro-transit on-demand service in South Salt Lake County was recently implemented. Initial response is positive but no official reports are ready at this time.

**5. Project Report/ Information – Salt Lake County ..... Madeline Francisco-Galang**

Madeline reported on the Salt Lake County experience with the 5600 West project. This \$1.25 M project was expected to be completed in 3 months, but due to unexpected conflicts with fiber optic lines the project was delayed several months. The project was to install a consistent park strip design and add lightning. Lesson learned is to complete a thorough utilities impact even for simple projects.

**6. Other Business ..... Greg Davenport**

- Thanks to Salt Lake County for refreshments
- Next Meeting of Trans Com TAC – February 26, 2020 - Refreshments – Sandy City.
- **Please Note that February’s meeting will be at West Valley City Hall Multi-Purpose Room.**

## Attendance Roll

### Salt Lake Technical Advisory Committee

Date January 22, 2019

*Please check your name or add it to the list below and update your contact information if needed.*
