

Center of Population for WFRC and Mountainland AOG Counties

For years 2000-2020 the weighted mean center of population was found using census block data. For 2030 to 2050, the weighted mean center of population was determined using traffic analysis zone (TAZ) level population projections from Utah's Unified Transportation Plan, and encompasses data from Tooele, Wasatch, Summit, Davis, Salt Lake, Weber, and Morgan Counties.).
